

Testing Your Booth Video Chat

Step One: Add your booth Representatives to your Video Chat. For more information, please view our [Video Chat Set Up Tutorial Video](#).

Step Two: After your representatives have been added, they will appear under “Video Conference with a Representative” as shown below.

You can either click the **blue Launch Video Chat** button to start the video chat on your computer, or click the **green Share Video Chat Link** button to copy the video chat link and share it with your representatives.

Step Three: After clicking on Launch Video Chat, start your video chat by clicking the **blue Launch** button, as shown below.

 Video Chat Launcher 

You can participate in the video chat on your computer using the blue 'Launch' button in Option #1. You can also join the video chat on your mobile device using the eventScribe Live app with Option #2. If you need technical support with your video chat please call our support line at (410) 638 9239.

VIDEO CHAT OPTION #1

This works best in Google Chrome, or the latest versions of the Firefox or Edge browsers. If the video chat is not working when you load it, simply copy the URL in the video chat window into a Google Chrome window.

 [Launch](#)

VIDEO CHAT OPTION #2

Download the 'eventScribe Live' app from the App Store or the Google Play store and use it to scan the QR code to the right to enter the video chat on your phone or tablet.

Testing Your Booth Video Chat

Step 4: Be sure you are able to see the video chat Launch. Your screen should look similar to the picture below.

If your video chat does not launch, please refer to our [Video Chat Troubleshooting Guide](#). If you have any questions, please contact LKishter@sponsorshipboost.com.
