

SITC-Akoya Spatial Phenotyping Program Award Terms and Conditions

Research Award Program Terms and Conditions

- **Sample Testing**
 - Maximum of 24 FFPE tissue samples will be processed for this award
 - Immuno-oncology FFPE tissue samples only
 - FFPE samples just sectioned on positively charged slides (no coverslip), tissue centered on the slides
 - Three serial sections per sample required, one slide will be processed, two slides will be back-up slides
 - Tracked overnight priority sample shipment via FedEx to Massachusetts, USA
 - Samples run on 6-plex, 7-color MOTiF™ pan-I/O (currently labeled lung cancer) kit or melanoma panel kit
 - Pan-I/O (lung cancer) markers limited to:
 - CD8
 - CD68
 - FOXP3
 - PD-1
 - PD-L1
 - PanCK
 - DAPI counterstain
 - Melanoma markers limited to:
 - CD8
 - CD68
 - FOXP3
 - PD-1
 - PD-L1
 - Sox10/S100
 - DAPI counterstain
- **Research Plan**
 - Agreed upon research plan and protocol development between Akoya Biosciences and the award recipient.
- **Service Terms**
 - As a condition to receiving the award, the recipient's institution must agree in writing to Akoya's standard terms and conditions for sample testing services, requirements for the samples to be provided, Akoya's right to use data resulting from the services for product development purposes and in marketing or informational materials (and to indicate in connection with such materials that such data were generated in collaboration with the recipient and its institution), and limitations on Akoya's liability ("Service Terms").
 - If the recipient's institution fails to agree in writing to the Service Terms, the award shall be forfeited.

SITC-Akoya Spatial Phenotyping Program Award Terms and Conditions

- **Program Terms and Conditions**

- The award recipient will use their best efforts to publish or publicly present the results of their research, including data generated pursuant to the award, in collaboration with Akoya Biosciences.
- The award recipient will authorize Akoya Biosciences to promote any such publication on its website, through social media, or otherwise.
- Akoya Biosciences is committing to fund this non-transferrable award solely on a one-time basis. Any other funding from Akoya Biosciences (for the same award in future years or any other award) shall require a separate written agreement between the parties.
