2022 IT in Academic Medicine Digital Demonstration Virtual Conference, Sponsored by the GIR

Thursday, December 8 – Friday, December 9, 2022
Afternoon hours (ET) each day
Virtual Conference

Submission Deadline: June 15, 2022, 11:59 p.m. PT

The 2022 IT in Academic Medicine: Digital Demonstration Virtual Conference, sponsored by the AAMC Group on Information Resources (GIR), is a virtual event designed to focus on innovative projects, tools, dashboards, state-of-the-art education spaces, and technology solutions where the products can be demonstrated and shown to conference participants. The demonstrated products and solutions should address challenges and successful strategies developed for meeting organizational goals.

With information technology established as a strategic asset essential to the growth and success of medical schools and teaching hospitals, this event offers valuable peer learning and networking opportunities on critical issues.

The Program Planning Committee is seeking proposals for digital demonstrations across a variety of topics in the information technology realm of academic medicine. Proposals featuring products that have already been implemented around strategic initiatives or operational excellence are encouraged.

The following are topical areas of particular interest, but any proposal on IT in academic medicine will be considered:

- Education Technology
- Research Technology
- Clinical Technology
- IT Infrastructure and Operations
- Security & Privacy
- Data Analytics/Data-Driven Academic Medical Centers
- Data Standards
- Diversity and Inclusion
- Instructional Design
- Leadership – Leading an IT team
- Leadership Development
- Change Management
- COVID-Related Response

- Community Engagement
- Innovative Education Spaces

Submission Form
All proposals include the following information:
- Title
- Speaker information

Questions:
- Topical areas addressing? Thematic areas listed above. Please select one (or up to two)
- What product, tool or innovation are you demonstrating? (Please briefly list the purpose of the product, tool or innovation. If selected, this information will be shared in the meeting program.) Max 800 characters
- What was the problem you were trying to solve?
- Is your product or tool commercial or custom built?
- Please describe a real-world scenario where this is utilized at your institution.
- How long has this been in use at your institution?

Session Logistics: The digital demonstrations allow for real-time brief presentations and discussions on applications, technologies, dashboards, or business intelligence tools being used to address institutional goals. Each demonstration will be 30 minutes in length with about 15 minutes devoted to the demonstration and 15 minutes for participants to ask questions and discuss the technology. Speakers should be prepared to share their screens and demonstrate either the actual product or a demo/dummy site during the session.

Review Criteria
Proposals will be evaluated based on the following criteria:
1. Relevance to academic medicine and interest to members of the AAMC IT Community
2. Clarity of writing and organization of ideas
3. Evidence of the product's use and effectiveness
4. Adaptability – can these ideas be implemented at another institution?
