EXPORT READING DATA

Libby now **allows users to export their reading data** including titles in a specific tag, their activity timeline, and bookmarks, notes & highlights.

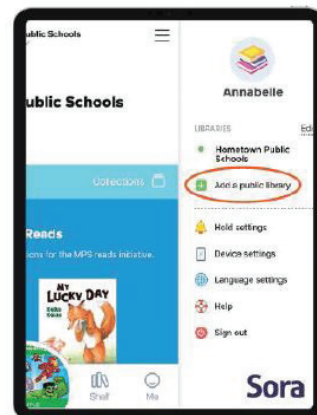

SHARE TITLES

Users can now share titles with friends! This new option **encourages users to socialize** their favorite reads while spreading awareness of your library's digital collection.

PUBLIC LIBRARY CONNECT

Public Library CONNECT extends your library's digital collection to every student in your community and helps them read more.

- All they need is the free Sora app
- Titles are borrowed using school credentials, supplementing existing library cards
- No cost or ILS integration from your library

NEW ACCESS MODEL

Concurrent Use: Metered Access (by circulation)

- Available to your library for a fixed number of checkouts (e.g. 100 checkouts)
- Multiple users can borrow the title concurrently until all checkouts are used

Many titles are available in more than one lending model, allowing you to find the right combination of lending models to meet demand and stay within budget

**One Copy/One User; Metered Access; Simultaneous Use; Cost Per Circ*
